

## Oral toxicity prediction results for input compound

Predicted LD50: 800mg/kg

Predicted Toxicity Class: 4

Average similarity: 61.13%

Prediction accuracy: 68.07%

|                                           |                                              |
|-------------------------------------------|----------------------------------------------|
| Name                                      | CCN1CC[C@@H](NC(=O)N2CC(Cc3ccccc(F)F)c3)C2=O |
